

FLEXIBLE ON-DEMAND TEAM
EXPERT. COLLABORATIVE. COST-EFFECTIVE

FLEXIBLE ON-DEMAND TEAM

GTS Teams was designed based on years of experience and customer feedback for an engagement model that is easy, stress-free and feels like an extension to an internal team. With a flexible and collaborative approach to professional services, you can easily adjust scope and priorities while working closely with our skilled cloud experts to build, migrate, optimize, and maintain your AWS environment.

EXPERT. COLLABORATIVE. COST-EFFECTIVE

Extend your team with wide range of expertise of our cloud experts.

Block of Hours engagement model saves you a ton. Use it when you need it.

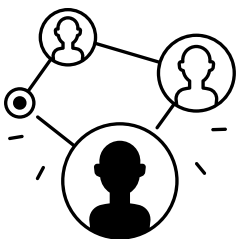

Predictable monthly spend on experts, with no long-term commitment.

GTS offers on-demand staff augmentation services for all your AWS cloud needs. Whether to cover an unexpected leave or fill a role indefinitely, our deeply skilled AWS professionals are available on short notice with flexible and tiered cost options.

GTS TEAMS

GTS Professional's team uses collaboration and sharing to deliver top results for customers. Our experts in cloud engineering, DevOps, and project management work together to ensure successful cloud integrations. Open communication and collaboration enable our team to find the best solutions and provide exceptional service to customers.

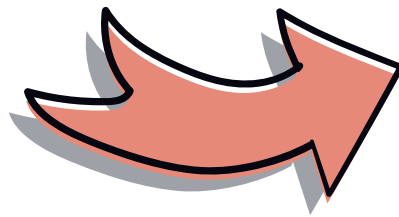

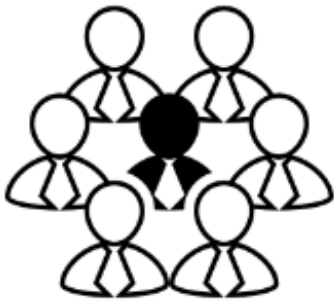

TAP INTO OUR EXPERTS WHEN YOU NEED THEM. SCALE UP AND DOWN WITH NO COMMITMENT

Access our experts as needed and scale your engagement with no long-term commitment for added flexibility. That's the power of collaboration and flexibility.

OUR SECRET SAUCE. HOW WE WORK TOGETHER

At GTS, we partner with customers to drive innovation. Our agile approach and close collaboration with customers allow us to accelerate cloud outcomes while imparting our collective knowledge gained from multiple clients to the customer's internal team. We prioritize joint success over being gatekeepers.

Your Team + GTS Team
